

### ***New in 2020: Welcome to Grand Central!***

New this year, we have designed an open, gathering area in the heart of the exhibit hall -- *CSCTFL's Grand Central!* Because we believe that meaningful personal and professional development take place in a variety of ways and in a variety of locations, including both formal sessions and workshops and informal learning opportunities, events in *Grand Central* will be scheduled through each convention day, primarily during session blocks. Come to *Grand Central* to meet our national Teacher of the Year and our regional Teacher of the Year, share your favorite app or technology "how to" during *Tech Time*, make a new friend during our *Meet Ups*, check out the poster presentations, meet the keynote speaker, and more!
